# Incoming Participants

Creating an Account

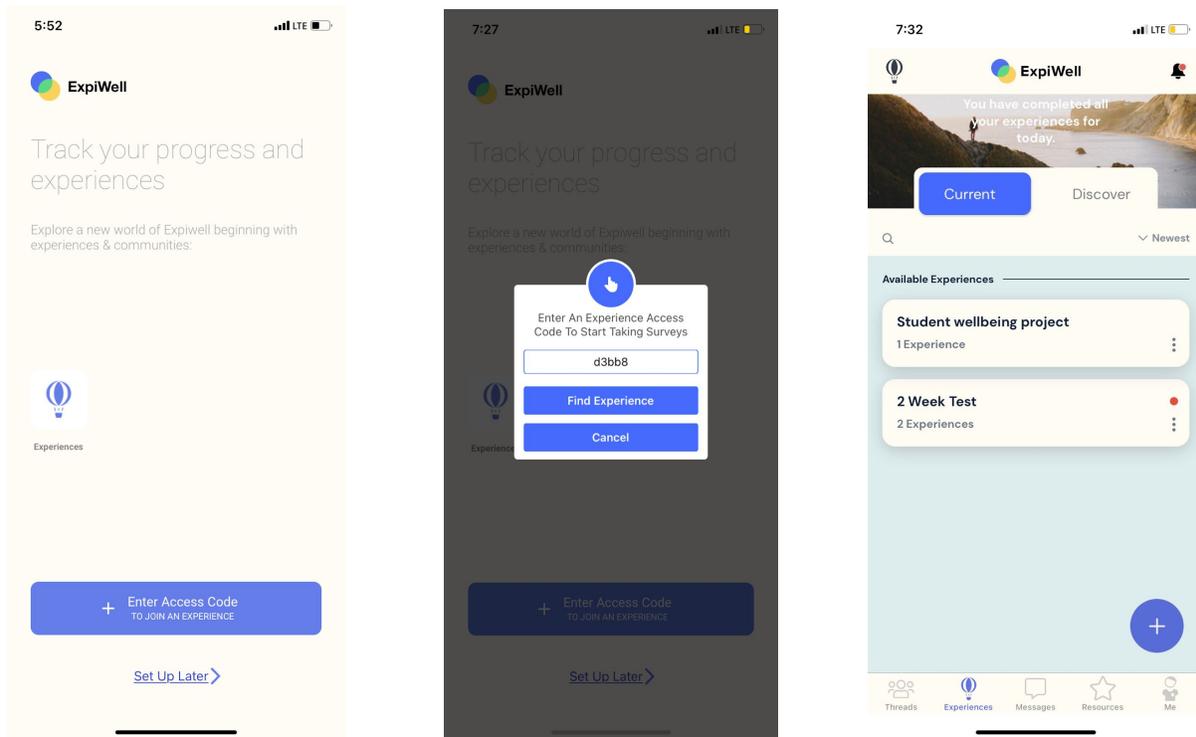

To get started, create an ExpiWell account.

1. Enter your first and last name in the boxes and click "**Next**."

2. Enter your email address, create a password, read and check "**I agree to the ExpiWell Terms & Privacy Policy,**" and click "**Sign Up**."

3. Once you have successfully created your account, you will be directed to your Experience dashboard where you can add and participate in survey projects.
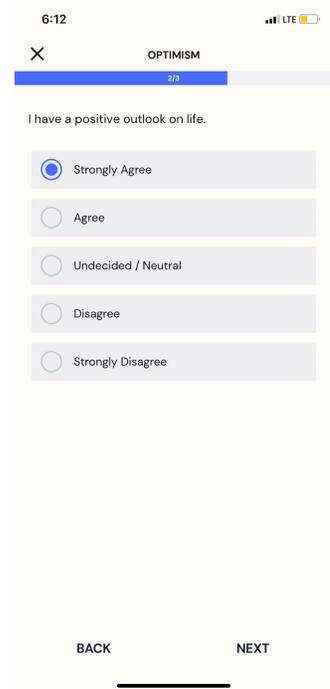

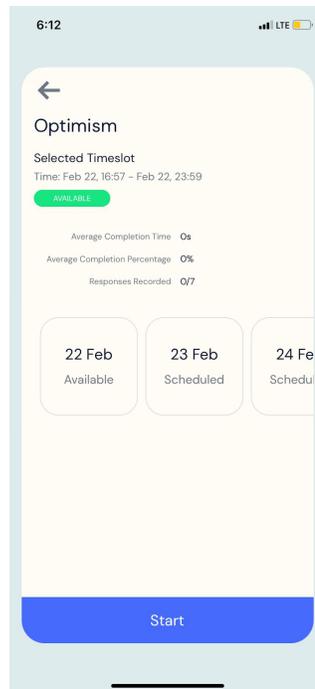

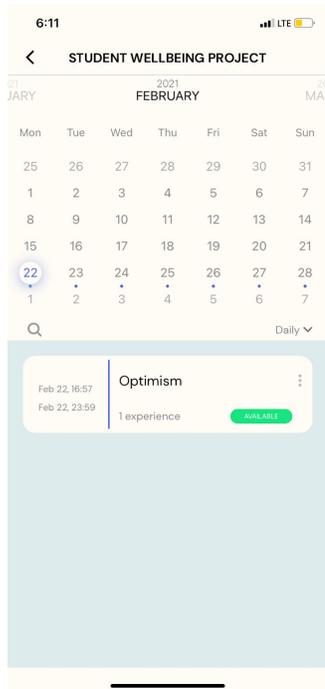

Note: Some projects are "**static**," or one-off survey types. These can be taken without creating an ExpiWell account. To start, select "Take One-Off Experience" at the bottom of the app homepage and enter your access code.
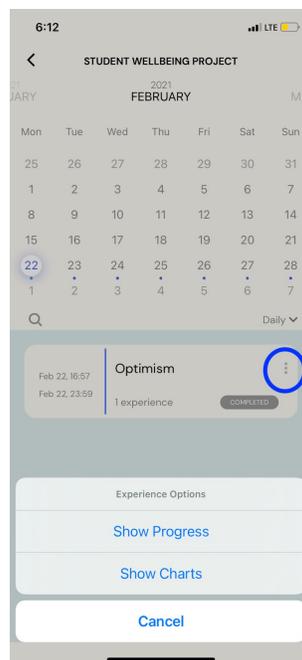

Adding and Taking an Experience

Once your account is created, you will be given the option to go to current Experiences or add an Experience. All Experiences have a unique **access code** for accessing the project. These codes will be sent to you either by a project administer or an ExpiWell-issued email.
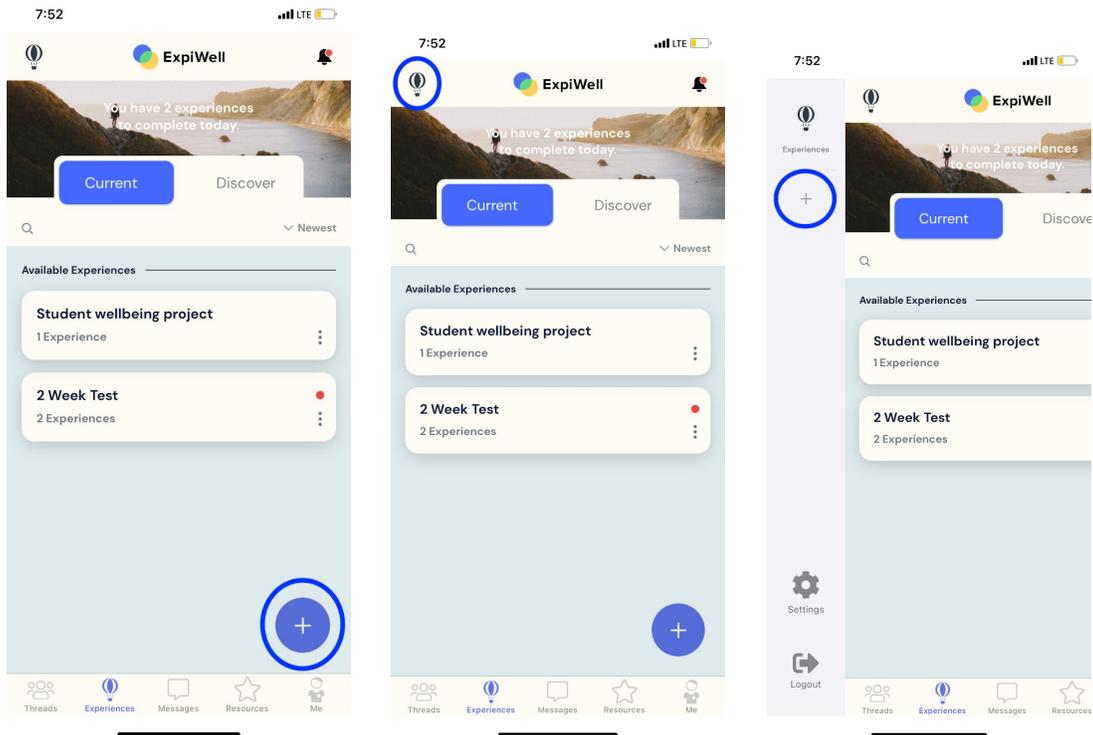

1. Click on the "**Enter an Access Code"** button. You will then be able to enter the code and find the Experience.
2. You will then be taken to the Available Experiences. Click on the desired project to access the Experience.

3. Click on the Experience and "**Start**." Once you have completed you will be able to view your progress and see the charts by clicking on the **three dots** in the upper right corner of the Experience.
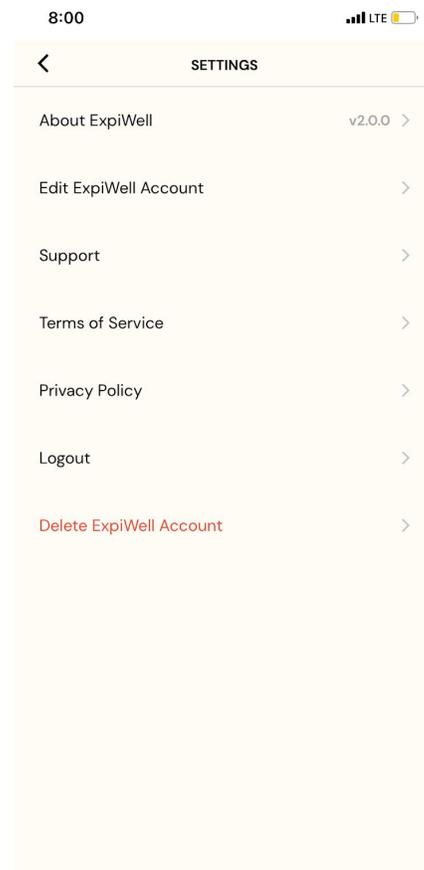

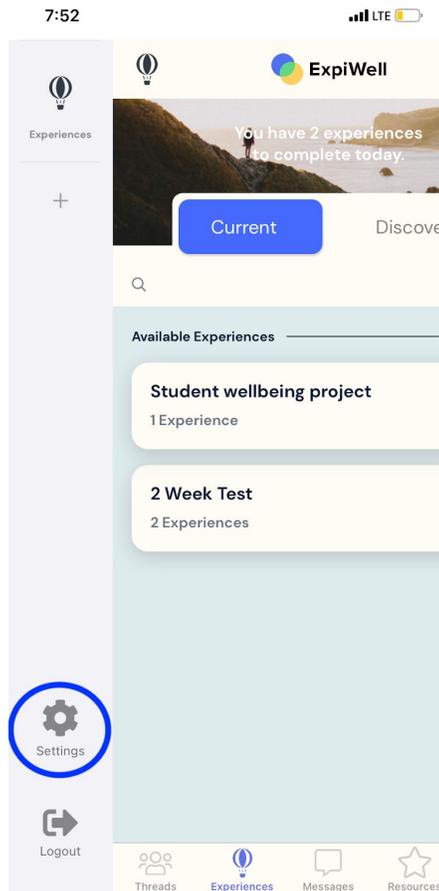

Additional Ways to Add an Experience

1. Click the "**+**" in the bottom right corner.

2. Click on the **Hot Air Balloon** in the upper left corner. That will lead you to the sidebar. Press on the "**+**" beneath the balloon to add another Experience.

Accessing Settings

1. Go to the sidebar by clicking on the **Hot Air Balloon** or swiping the screen towards the **right.** Press the "**Settings**" icon.
